AUTOMOTIVE REPAIR CATALOGUE

DRIVING SURFACE PERFECTION™

U-POL IS A WORLD LEADER IN AUTOMOTIVE REFINISHING PRODUCTS SPECIALISING IN FILLERS, COATINGS, AEROSOLS, ADHESIVES & PAINT RELATED PRODUCTS.

Recognised globally with sales in over 100 countries, **U-POL** is committed to consistently providing customers with high quality products that professional technicians demand. Our heritage and experience of nearly 70 years in the industry, coupled with our continued investment in state-of-the-art manufacturing facilities and reputation for innovation, ensures that your **U-POL** experience is nothing less than world class.

DID YOU KNOW?

- **U-POL** Head Office is located in London with over 4 acres of manufacturing facilities in Wellingborough.
- **U-POL** products are all produced with high quality European resins.
- **U-POL** has 13 offices and 5 distribution centres worldwide.

USEFUL TO KNOW

Quick access to our Safety Data Sheets and Technical Data Sheets is available by visiting our website.

www.u-pol.com.au

Also check out our YouTube channel that has plenty of 'how to' process videos and technical tips.

www.youtube.com/U-POLDSP

U-POL products are designed and developed for today's professional technicians. Our products are developed to improve bodyshop efficiency and ensure a great result first time, every time.

U-POL PRODUCTS GIVE UNRIVALLED RESULTS FOR ALL STAGES OF THE REPAIR PROCESS

U-POL has a comprehensive range of fillers and coatings and we are uniquely positioned to deliver solutions developed, tested and approved for the modern bodyshop. We know your reputation matters and that's why **U-POL** is investing in future innovation, to help your team get it right first time, every time.

FILLERS

PAGE 8 - 10

U-POL offers a comprehensive range of body fillers to streamline repairs that are simple to use and easy sanding. To satisfy bodyshop demand for quality and performance, our range utilises the latest advancements in resin technology to give the perfect finish first time, every time.

SPECIALITY FILLERS

PAGE 11 - 13

U-POL speciality fillers are formulated for specific applications where an all purpose filler just won't do. Each product has been put through extensive testing to ensure you have the right product for the right job.

AEROSOLS

PAGE 14 - 20

Our Premium Aerosols are a comprehensive range ideal for spot/panel and SMART applications. Special clog-free nozzles give a spray gun-like finish to every job. The Power Can™ refinsh range has been formulated to re-create professional results with the convenience of an aerosol.

U-POL Custom Can™ Colour Centre offers instant, accurate filling of aerosol spray colours.

COATINGS

PAGE 21 - 25

U-POL coatings offer superior performance in a range of formulations to suit a variety of bodyshop conditions and specialised applications. The coatings category includes the new fast drying **RAPID SYSTEM**, the comprehensive **SYSTEM 20** range and high performance specialist coatings.

THINNERS & PAINT ANCILLARIES

PAGE 26 - 27

U-POL offers a full range of thinners and paint ancillaries designed to prepare automotive surfaces and facilitate a smooth coating application.

RAPTOR® COATINGS

PAGE 30 - 31

RAPTOR is a tough and tintable protective coating that provides surfaces with a protective barrier to withstand the toughest situations.

ADHESIVES, SEALANTS & PLASTIC REPAIR

PAGE 32 - 33

U-POL adhesives range and sealants have been designed to provide durable, high strength bonding and sealing solutions for various automotive applications.

SPRAY GUNS & BODYSHOP CONSUMABLES

PAGE 34 - 35

U-POL offers an extensive range of consumables, a must for every bodyshop.

ISOPON VEHICLE REPAIR SOLUTIONS

PAGE 36 - 39

ISOPON offers a range of automotive body repair solutions.

RAPID

SYSTEM™

NEW
FOR 2017

A NEW GENERATION OF ULTRA-FAST AUTOMOTIVE REPAIR PRODUCTS

At **U-POL** we understand the pressures of modern bodyshops and the importance of 'great results fast' which is why we've developed the new **RAPID SYSTEM** range.

RAPID SYSTEM is an innovative new line of collision repair products engineered with unique Rapid Cure Technology to significantly reduce key to key times.

RAPID SYSTEM products can be used individually or as a system to save time and energy, improving bodyshop efficiency throughout the entire repair.

RAPID SYSTEM CLEARCOAT

An innovative new formula technically developed and tested to deliver ultimate drying speed (air dried/oven baked or IR cured) producing a superior 'gun finish'.

*Polishing may be required.

U-POL BODY FILLERS

A comprehensive range of fillers to satisfy bodyshop demand for quality and performance. Our range utilises the latest advancements in resin technology to give perfect results every time.

EASY FILLER RANGE

Formerly Flyweight™
AVAILABLE SOON

EASY™ 1 Lightweight Body Filler For Deep Repairs

An easy to use, lightweight polyester body filler for deep repairs. The non-sag formula is ideal for use on vertical or horizontal repairs and its lightweight formula bonds to multiple substrates including galvanised steel, metal and GRP.

- Smooth textured, tack free finish
- Easy spreading and quick to shape
- Non-sagging when used on vertical surfaces

There's a U-POL Premium Aerosol for all stages of the repair process...

This simple process chart shows exactly which aerosol you need for which application.

Our Premium Aerosols are a comprehensive range ideal for spot/panel and SMART applications. Special clog-free nozzles give a spray gun like finish to every job.

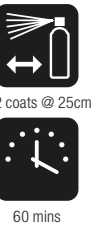

PREMIUM AEROSOLS

CLEAR#1 UV Resistant Clearcoat

Advanced clearcoat that gives an excellent high gloss finish with UV resistance and durability. Ideal for spot repairs, wing mirror covers, door handles and mouldings.

- Excellent flow and depth of gloss
- Easy to use and fast drying
- Compatible with solvent and water based basecoats

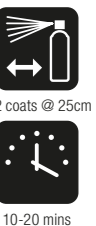

CODE	SIZE	COLOUR	CTN
CLEAR/AL	450ml Aerosol	Clear	6

WELD#2 Weld Through Primer

A high adhesion, super conductive primer offering excellent rust protection when applied to suitably prepared panels prior to SPOT, MIG and TIG welding.

- Fast drying
- High concentration of zinc or copper in the dry film
- Corrosion resistant

CODE	SIZE	COLOUR	CTN
WELD/AL	450ml Aerosol	Zinc	6
WELDC/AL	450ml Aerosol	Copper	6

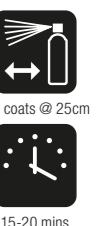

NEW AVAILABLE SOON

SPOT#3 Universal Spot Primer

A fast drying universal spot primer ideal for small rub through areas and localised repairs. Use directly on metal or plastic parts.

- Highly flexible, excellent adhesion
- Can be overcoated with any water or solvent based top coat
- Fast drying and easy to sand

CODE	SIZE	COLOUR	CTN
SPOT/AL	450ml Aerosol	Grey	6

DIRECT TO METAL
Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

GRIP#4 1K Universal Adhesion Promoter

A ready to use universal adhesion promoter for paints, adhesives and sealants. Ideal for all automotive surfaces such as plastics, aluminium, fibreglass, galvanised and painted surfaces. Replaces the need to abrade surfaces in difficult to access areas.

- Sprays flat - no sanding required
- Can be overcoated with most water or solvent based paint systems
- Provides a protective barrier against lifting or solvent attack

1-2 coats @ 25cm

10-20 mins

CODE	SIZE	COLOUR	CTN
GRIP/AL	450ml Aerosol	Clear	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

HIGH#5 High Build Primer Filler

A primer with ultra high build filling properties for a very smooth surface prior to application of the top coat. Ideal for spot repairs on fully cured paint, polyester body fillers, GRP and prepared steel.

- Produces a similar film thickness to spray applied primers
- Fast drying, easy to sand
- 2 nozzles for controlled application

1-2 coats @ 25cm

60 mins

HIGHW/AL	450ml Aerosol	White	6

NEW AVAILABLE SOON

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

WIPE#6 Solvent Based Degreaser

An anti-static, anti-silicone degreaser that removes contaminants including wax, grease and silicones.

- Fast evaporating for localised repairs
- Formulated to avoid attack on existing paint film
- Can be used on bare metal and existing paint surfaces

1-2 coats @ 25cm

CODE	SIZE	COLOUR	CTN
WIPE/AL	450ml Aerosol	Clear	6

Formerly S2004/AL
AVAILABLE SOON

GUIDE#7 Dry Guide Coat

A highly effective dry powder guide coat that highlights and identifies surface imperfections when sanding fillers or primers.

- Does not clog or block abrasives
- Suitable for dry or wet sanding
- Dries instantly

1-2 coats @ 25cm

CODE	SIZE	COLOUR	CTN
GUIDE/AL	450ml Aerosol	Black	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

ACID#8 1K Acid Etch Primer

Promotes paint adhesion to difficult substrates such as galvanised steel and aluminium. Ideal for rub through areas in primer prior to application of colour.

- Fast drying
- Super smooth finish - can be directly overcoated
- Excellent anti-corrosive properties

1-2 coats @ 25cm

10-20 mins

CODE	SIZE	COLOUR	CTN
ACID/AL	450ml Aerosol	Grey	6

Also available in 1L tin - ACID/1 page 24

Formerly S2043/AL
AVAILABLE SOON

BLEND#9 Fade Out Solvent

A fast and effective blending solvent to fade out the edges of clearcoat and solid colours. Ideal for all types of repairs.

- Invisible blend finish
- For use with all coatings
- Suitable for smart repairs

1 coat @ 25cm

CODE	SIZE	COLOUR	CTN
BLEND/AL	450ml Aerosol	Clear	6

Formerly Gravi-Gard Grava/B
AVAILABLE SOON

GUARD#10 Gravi-Gard™ Stone Chip Protector

A textured, durable coating to protect against stone chips, salt, damp and rust. Supplied with two nozzles for either a fine or coarse finish.

- Sound dampening - ideal for body panels and inside engine compartments
- Fast drying and can be overpainted
- High build formulation covers weld marks and seams

1-2 coats @ 25cm

3-4 hours

CODE	SIZE	COLOUR	CTN

U-POL COATINGS

Made from the highest quality European resins, **U-POL** coatings offer superior performance in a range of formulations to suit a variety of bodyshop conditions and specialised applications. The range includes the new ultra-fast drying **RAPID SYSTEM** Clearcoat as well as the comprehensive **SYSTEM 20** range, all of which can be air dried, low baked or I.R. cured.

**RAPID SYSTEM™****ULTRA-FAST BRILLIANT FINISH**

U-POL RAPID SYSTEM Clearcoat - an innovative new formula technically developed and tested to deliver ultimate drying speed (air dried, oven baked or I.R. cured) producing a superior finish.

*polishing may be required

To find out more about **RAPID SYSTEM** visit www.rapid.u-pol.com

SYSTEM 20

- **SYSTEM 20** is a comprehensive range of coatings, primers and thinners for application with most water and solvent borne basecoat paint systems.
- **SYSTEM 20** features excellent UV resistance and a durable high build, high gloss finish.

RAPID SYSTEM™ COATINGS

NEW AVAILABLE SOON

RAPID SYSTEM™ PRIMER

RAPID SYSTEM Primer is a high performance primer surfacer, which is ready to sand in less than 1 hour. Its ease of use and excellent hiding capabilities ensure a high quality uniform finish prior to colour coating.

- Rapid drying with long pot-life
- Easy sanding
- Ideal for fast air dry finish to save time and energy costs

RAPID SYSTEM™ CLEARCOAT HARDENER

Suitable for all climates and conditions.

- For use with **RAPID SYSTEM** Clearcoat
- Gives unrivalled curing times
- Only one hardener required - reduces stock holding

CODE	SIZE	COLOUR	CTN
RS6600	500ml Tin	Clear	6
RS6602	2.5L Tin	Clear	4

SYSTEM 20 CLEARCOATS

SYSTEM 20 Clearcoats - high quality automotive clearcoats that harden rapidly to give a high build, high gloss coating which is easy to flat and polish, offer excellent UV resistance and long term durability. Formulated to apply over the most common basecoat paint systems (including water based), they have excellent flow and non-sag properties. Different formulations are available including specialised functions all of which can be air dried, low baked or I.R. cured.

S2081
Brilliant Clearcoat

Excellent clearcoat to reproduce manufacturer's original finish.

- Good flow and non-sag properties
- Hardens rapidly to give a high build U.V. resistant coating
- Excellent gloss and long term durability
- Suitable for all types of paintwork application

SYSTEM 20 PRIMERS

SYSTEM 20 Primers - a range of high quality automotive primers that can be applied directly to most substrates including E-coat.

S2021 Ultra High Solid High Build Primer

A fast drying, multi-purpose primer offering the functionality of '2 products in 1' - primer filler and primer surfacer. High adhesion and corrosion resistance makes it suitable for spot repairs to full panel applications.

- Excellent build and opacity
- Excellent surface levelling properties
- Use with S2030, S2032 and S2033 hardeners

Substrates: Bare metal, prepared aluminium and galvanised, GRP, SMC, fibreglass, polyester filler, OEM surfaces

SYSTEM 20 PAINT ANCILLARIES

S2045
Standard Universal Thinner

A high quality formulation to adjust the spray viscosity of most paint systems. Compatible with most U-POL paint systems.

CODE	SIZE	COLOUR	CTN
S2045/1	1L Tin	Clear	5

ROCKET™
Paint Accelerator

Liquid additive for use with 2K isocyanate hardeners to achieve rapid through-cure. Accelerates through curing of 2K primers, top coats and clearcoats significantly reducing stoving times. Offers increased workshop throughput and energy savings.

- Reduces drying time by between 30-50%
- Speeds up demasking and overpainting when mixed with 2K hardeners
- Compatible with most 2K coatings

CODE	SIZE	COLOUR	CTN
ROC/S	250ml Bottle	Clear	10
S20ROC/M	500ml Bottle	Clear	6

S2000
Water Based Degreaser

High performance anti-silicone panel wipe with aggressive degreasing action to remove contaminants such as wax, grease and silicones. Anti-static properties enable the effective removal of surface static (built up during the preparation stages) prior to overcoating. Ideal for plastic substrates.

- Low VOC formula suitable for solvent sensitive plastics
- Compatible with most paint systems
- Non-flammable, non-hazardous

CODE	SIZE	COLOUR	CTN
S2000/5	5L Container	Clear	2

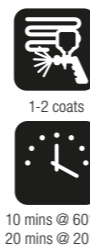

S2003
Plastic Primer Adhesion Promoter

Universal plastic primer, promotes adhesion of paints, adhesives and sealants to most plastics prior to the application of colour.

- Ideal for use on difficult to coat plastics such as Thermoplastic Olefins (TPO)
- Fast drying
- Easy to apply

CODE	SIZE	COLOUR	CTN

SPECIALIST COATINGS

GRAVITEX PLUS®
HS Stone Chip Protector

A hard, durable underbody coating that can be used to reproduce the manufacturers original stone chip protective finish. Sound and vibration dampening makes it ideal for use inside compartments and panels.

- Ready to use 1K formula
- High build formula covers weld marks and seams
- Protects against stone chips, salt, damp and rust

CODE	SIZE	COLOUR	CTN
GRA/NB1	1L Bottle	Black	12
GRA/GG1	1L Bottle	Grey	12
GRA/BW1	1L Bottle	White	12

Substrates: Bare metal and primed aluminium or galvanised panels

BARCOAT™
Quick Drying Isolator

A quick drying yellow oxide isolator. Ideal for restoration work, prevents lifting and bleeding of existing paint film sensitive to solvent attack.

- Ready for use
- Overcoat with a suitable primer in 1 hour

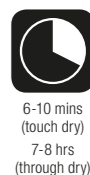

CODE	SIZE	COLOUR	CTN
BAR/1	1L Tin	Yellow	6

GREY STRIPE™
Brushable Seam Sealer

Flexible brushable seam sealer for overcoating of welded joints. Ideal for use in luggage and engine compartments to recreate the original finish.

- Fast drying, one coat application
- Non string formula, clean, quick and easy to apply
- Overpaint with most paint systems

CODE	SIZE	COLOUR	CTN

RAPTOR®

TOUGH AND TINTABLE PROTECTIVE COATING

RAPTOR Protective Coating provides surfaces with a barrier that can withstand the toughest situations.

Developed to tolerate most climatic conditions, **RAPTOR** is U.V. resistant and won't fade or "chalk" even after years in the sun. **RAPTOR** is also water resistant and protects surfaces from rust.

RAPTOR's versatility makes it ideal for almost any application. Spray or roll **RAPTOR** on high traffic areas; it is durable, stain resistant and easy to clean. Its flexible formulation can handle impacts without cracking, making it perfect for its most popular application as a truck bed liner.

RAPTOR's is unlike other protective coatings. It provides more value and is faster than powder coating. In case it does scratch (which is tough to do!), **RAPTOR** can easily be repaired. You can't do that with most of the other bed liners and protective coatings!

RAPTOR protects the roughest industrial surfaces as well as the smaller surfaces we rely on every day. It looks great and it lasts a long time.

When you need a surface protection solution that can stand up to the elements, choose **RAPTOR**...

RAPTOR®

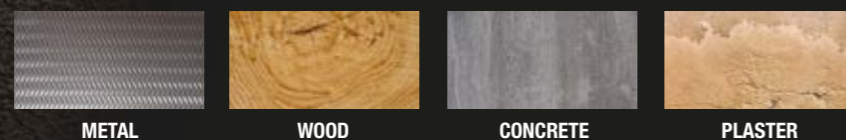

TOUGH AND TINTABLE
PROTECTIVE COATING

When you need a surface protection solution that can stand up to the elements, choose RAPTOR...

IDEAL FOR A WHOLE RANGE OF APPLICATIONS...

...AND CAN BE USED ON VARIOUS SURFACES

RAPTOR® BED LINER & PROTECTIVE COATING

RAPTOR KITS

The 1L **RAPTOR** kit is ideal for smaller applications and touch-ups. Each kit contains 750ml of **RAPTOR** and 250ml of hardener in an eye-catching retail packaging. The 4L **RAPTOR** kit is the industry standard in bed liner coating. Each kit contains four 750ml bottles of **RAPTOR** and a 1L tin of hardener.

- The 1L **RAPTOR** kit covers approximately 3m²
- Best results achieved with both **RAPTOR** standard and professional vari-nozzle application guns
